

Comprehensive Capital Improvement Program

Project	Streets Affected	Project Description (work to be performed)	Construction Anticipated Start Date	Construction Anticipated Completion Date
2016 Street Program Rehabilitation Work	Springfield Pike (SR4) Service Road	Full curb replacement, sidewalk repairs, pavement repairs, asphalt grind and overlay.	Fall 2016	Fall 2016
Routine Maintenance	Fairsprings Ct. Knollsprings Ct. Glenfalls Ct. Cantrell Dr. Chardon Ln. Coxbury Circle Greencastle Dr. Harcourt Dr. Hillgrove Ct. Woodvale Ct. Ashmore Ct. Cedarhill Dr. (Oxford Hills) Yorkhaven Rd. (Oxford Hills)	Roads will be treated with reclamite pavement rejuvenator; a routine maintenance process that will increase asphalt flexibility and seals the pavement surface.	Fall 2016	Fall 2016
2017 Street Program Rehabilitation Work	W. Kemper Road (From Springfield Pike to Kenn Road)	Catch basin repairs, manhole adjustments install ADA ramps, pavement repairs, asphalt grind and overlay of streets.	Spring 2017	Summer/Fall 2017
Rehabilitation Work	Cameron Road Naylor Court	Full curb replacements, catch basin repairs, manhole adjustments, sidewalk repairs, install ADA ramps, pavement repairs, asphalt grind and overlay of streets.	Spring 2017	Summer/Fall 2017
Rehabilitation Work	Ray Norrish Drive (from SR4 to terminus) Springdale Lake Drive	Catch basin repairs, manhole adjustments, sidewalk repairs, pavement repairs, asphalt grind and overlay of streets	Spring 2017	Summer/Fall 2017
Rehabilitation Work	Grandin Avenue (from Rose Ln. to Vanarsdale Ln.) Bernhart Court Whallon Court	Full curb replacements, catch basin repairs, manhole adjustments, sidewalk repairs, install ADA ramps, pavement repairs, asphalt grind and overlay of streets, storm sewer upgrade.	Spring 2017	Summer/Fall 2017

Routine Maintenance	Sharon Road (From Springfield Pike to Forest Park boundary)	Perform several partial and full depth pavement repairs on failing pavement, apply Cape Seal application. The Cape Seal process seals the pavement section, reduces reflective cracking, corrects minor rutting, adds skid resistance and provides a uniform dark color to the entire pavement surface.	Spring 2017	Summer 2017
Routine Maintenance	Ballinger Road (Sharon Rd. to City boundary) Rockcrest Drive (Ballinger Rd. to Vista Glen) Fallstone Drive (Rockcrest Dr. to Vista Glen) Vista Glen (Sharon Rd. to terminus) Ashleigh Court (Vista Glen to terminus) Glensford Court (Vista Glen to terminus)	Perform several partial and full depth pavement repairs on failing pavement, apply Cape Seal application. The Cape Seal process seals the pavement section, reduces reflective cracking, corrects minor rutting, adds skid resistance and provides a uniform dark color to the entire pavement surface.	Spring 2017	Summer 2017
Routine Maintenance	Albano Street Audie Court Benadir Road Benedict Court Castro Lane Cornavin Court Ledro Street Mallet Drive Marwood Lane Navona Court Pilgrim Place Tavel Court Terrytown Court Tivoli Lane Wainwright Drive	Project will perform crack sealing process for cracks ranging from 1/4 inch to 1 inch in width; Apply Mastic Surface Treatment (ONYX) to fill cracks less than 1/4 inches. This dual process will seal the pavement while providing a uniform dark color to the entire pavement surface.	Spring 2017	Summer 2017
Routine Maintenance	Grandin Avenue (west of Rose Lane) Lafayette Avenue Madison Avenue Observatory Drive Rose Lane. (South)	Project will perform crack sealing process for cracks ranging from 1/4 inch to 1 inch in width; Apply Mastic Surface Treatment (ONYX) to fill cracks less than 1/4 inches. This dual process will seal the pavement while providing a uniform dark color to the entire pavement surface.	Spring 2017	Summer 2017

Routine MaintenanceCrack Seal & Mastic Surface:

Balsam Court
 Diston Lane
 Harter Avenue
 Mangrove Lane
 Nelson Lane
 Neuss Avenue
 Princewood Court
 Ramsdale Court
 Rosetta Court
 Ruskin Drive
 Silverwood Circle
 Van Camp Lane
